I am an experienced React Native Developer with over 5 years of experience in developing mobile applications. I have worked for companies such as Cashbook, Arvolution, Nava Ventures Limited, and many more, where I have honed my skills in developing high-quality mobile applications.

I am proficient in React Native, TypeScript, GraphQL, NodeJS, and other related technologies. I have also worked on Hyperledger frameworks like Hyperledger Indy, Fabric and Aries. I have strong problem-solving and analytical skills with a focus on algorithms. Additionally, I possess excellent collaboration and communication skills, which have enabled me to work effectively with designers, developers, and stakeholders.

I am a highly motivated individual who is committed to delivering high-quality work. At my previous job, I led a team of junior developers and provided guidance and support to them as needed. I am a fast learner and am always eager to learn new technologies and stay up-to-date with industry trends.

Additionally, I am a strong team player and have consistently collaborated with my peers to achieve our common goals.

My career goal is to continue to develop my skills as a React Native cum NodeJS Developer and to work on projects that have a significant impact on the industry. I am interested in positions which provide me with the opportunity to work on challenging projects that leverage my expertise in mobile application development. Additionally, I am excited to work with a team of talented individuals who are committed to delivering high-quality work.

React Native Developer

Nava Ventures Limited, Pune

- Collaborated on stages of systems development lifecycle from requirement gathering to production releases
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development
- Revised, modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality

2021-04 - 2021-05

- Integrated constructive programs into cohesive product

React Native Developer

Cashbook, Pune

A cloud-based expense management platform designed specifically for small businesses. The platform allows businesses to easily track and manage their expenses, including receipts, invoices, and bills, in one centralized location. The platform also offers features such as realtime expense tracking, automated expense reporting, and customizable expense categories to streamline the expense management process. With our platform, small businesses can save time, reduce errors, and gain valuable insights into their expenses to make informed financial decisions.
